1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

Cancel claims 1, 3 and 6-11 withdrawn, non-elected claims. Applicant reserves the right to file for divisional application.

2. The following is an examiner's statement of reasons for allowance:

The invention relates to a metal foil catalyst carrier body which includes a seamless one piece body having an interior with hold formed therein; a inner contour delimiting the hole and an outer contour and a structure with radially running wave peaks and wave valleys extending from the inner contour to the outer contour the wave peaks and wave valleys having a wave height being constant in radial direction and having a wave length increases in radial direction which has not been taught either singularly or in combination by the prior art. The construction of the metal foil simplifies the production of catalytic converter honeycomb bodies through which gas can flow in the radial direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
